Education

- **Birla Institute of Technology, Mesra**

B.Tech - CSE | 2021 - 2025
CGPA: 6.7(expected)

- **DAV Bariatu, Ranchi**

Class XII (AISSCE) | 2018 - 2020
Aggregate: 79%

- **DAV Bariatu, Ranchi**

Class X (AISSE) | 2017 - 2018
Aggregate: 80%

Skills

- **Programming Languages:** Python, C, C++, Java
- **Web Development:** HTML, CSS, JavaScript, Bootstrap, React
- **Backend Development:** Node.js, MySQL, Firebase, JSON
- **Version Control:** Git, GitHub
- **Other:** REST APIs

Projects

1. Jal - Water Delivery Website

Developed a full-stack water jar delivery service website.

- Built a **responsive frontend** using HTML, CSS, and JavaScript.
- Powered the **backend** with Node.js and integrated **Firebase** for real-time database management.
- Features included **easy order placement**, delivery tracking, and subscription management.
- Utilized real-time updates to notify users of their order status, improving user engagement.

Technologies Used: HTML, CSS, JavaScript, Node.js, Firebase

2. Currency Converter Website

Developed an interactive currency converter application.

- Created an **intuitive interface** with input fields for selecting currencies and displaying real-time conversion rates.
- Implemented a robust **currency conversion algorithm** using JavaScript, ensuring accurate and up-to-date conversion.
- Optimized the app for **usability** and responsiveness, making it accessible across devices.

Technologies Used: HTML, CSS, JavaScript, REST API
